What about the Sky-line?

Is it adding to the beauty of the house —is it tasteful and pleasing?

Foreword

This complete catalogue of Wheatley Hand Fashioned Chimney Tops will fill a long felt need, and should prove of great use to you in the specifying and ordering of chimney tops. Our tops are unsurpassed as to beauty and durablity, and harmonize with brick, frame, stucco and stone treatments.

A comprehensive stock of tops is carried in our standard color, old ivory, however, we can, if sufficient time is permitted, furnish tops in rhone red, plymouth gray, or a blend of colors may be developed on request.

In case of structures where chimney tops of special design are desired, we offer the service of our designing and modeling departments, which together with our other facilities, enables us to build to your order at prices that are reasonable.

We desire to express to the architect and others our deep appreciation for their help and assistance in making this line of chimney tops unsurpassed.

Write us for suggestions or submit your sketches and we will cheerfully give you full information and prices.
